Professional Summary

Flutter Developer with 5+ years of software development experience, specializing in Flutter for high-scale mobile applications serving major Brazilian and international institutions. Proven track record building robust solutions that handle multiple concurrent users. Passionate about Flutter excellence and technical leadership. I mentor junior developers and drive architectural improvements that enhance team productivity, code quality, and app performance.

Core Skills

• Flutter & Dart (Cross-platform mobile development) • iOS & Android native integration • Clean Architecture & Design Patterns • Cloud services (Firebase, AWS) • AI-assisted development • Technical leadership & team mentoring

Professional Experience

Salsa Technology

Flutter Specialist | Mobile Architect | AI Engineer

Oct 2025 – Present | São Paulo, Brazil

- Architect and lead the development of high-scale Flutter applications, applying Clean Architecture principles and advanced state management to ensure performance, scalability, and maintainability.
- Design and implement AI-driven features and multi-step agent integrations, connecting real-world APIs and data pipelines to enhance automation, personalization, and user experience.
- Drive technical excellence by mentoring engineers, establishing CI/CD pipelines, improving code quality standards, and optimizing app performance across iOS and Android platforms.

GAV Resorts

Flutter Engineer | Mobile Architect

Jul 2024 – Sep 2025 | Goiânia, Brazil

- Integrated the Flutter application with a complex distributed back-end system, built with Nest.js and Go microservices.
- Rebuilt and migrated a legacy system, achieving an 80% improvement in process efficiency and a 45% reduction in operational costs.
- Implemented comprehensive automated testing protocols and CI/CD pipelines for multiple repositories using GitHub Actions, Codemagic, and Pulumi, which optimized deployment.

Zellor AI

Software Engineer | AI Engineer

Mar 2023 – Jun 2024 | Dublin, Ireland

- Migrated a database and back-end, improving query performance by 50% and reducing storage costs by 30%.
- Contributed to core platform development (portal, Shopify app, embeddable carousels), which increased user sales by over 15% and reduced costs by 20% through autoplay strategy optimization.
- Integrated AI and LLMs into the application for better suggestions and a better user experience.

MusicPlayce

Flutter Developer

Jul 2022 – Feb 2023 | Goiânia, Brazil

- Introduced HydratedBLoC for state persistence, reducing redundant Firebase reads by 75% and cutting infrastructure costs.
- Implemented AI-powered search with Algolia and deep linking via Branch.io, boosting user engagement by 23% and improving content discoverability.
- Implemented an AI-powered LLM chatbot to improve user communication and manage FAQs.

Farsoft Systems

Flutter Developer

Feb 2021 – Jun 2022 | Pouso Alegre, Brazil

- Actively contributed to the large-scale migration of core legacy CRM and ERP systems to a modern, scalable architecture.
 - Developed critical system components for the migrated CRM/ERP, emphasizing clean code principles, comprehensive testing, and operational efficiency.
 - Successfully integrated diverse system modules for the CRM/ERP using REST APIs, ensuring seamless data flow and interoperability.
-

Education & Certifications

- EF SET English Certificate - C1 Advanced
 - AWS Certified Developer – Practitioner
 - Bachelor's in Computer Science – Descomplica Faculdade
 - Dart Week Immersion - 9th and 10th - Academia do Flutter
 - Swift Development - Udemy
 - Flutter Development - Udemy
-

Languages

- Portuguese: Native (C2)
 - English: Full Professional Proficiency (C1)
-

Additional Training & Highlights

- Curso.dev – Filipe Deschamps
 - Academia do Flutter – Rodrigo Rahman
 - AIDA - Personal Flutter Project
 - Cuidapet - Personal Flutter Project
-
